Eastern Aleutian Tribes is seeking qualified applicants for a **Quality Improvement and Data Management Director**.

## ***Working together to promote healthy communities***

Under the direction of the Chief Compliance Officer, the **Quality Improvement and Data Management Director** is responsible for overseeing the collection of both clinical practice and administrative process data and recommending and executing initiatives to enable improved outcomes. As this is a new position, the incumbent will need to forge his/her path as data is gathered, analysis occurs, and recommendations are made. A critical eye combined with a patient and encouraging attitude are imperative for success.

The incumbent actively manages the exchange and reporting of information to ensure compliance for a variety of grants. And, working with and through the Clinical Information and Information Technology team members, the incumbent leads and directs quality service and support throughout EAT's facilities. Project and time management skills, and planning and forecasting skills must supplement strong leadership competencies to ensure organizational outcomes are achieved.
